So, what's the word?
We just heard back from our operatives on the inside.
According to intel, Mistress Sabrina will return home today,
That's good to hear.
WITH the new baby.
Wait, WHAT!?
Oh no no no! This is going to be just like Timmy all over again!
Timmy wasn't that bad!
He was a HORROR early on! Oh, this is worse than Revenge of the Fallen!
Well, I doubt the mistress is going to give up her own offspring for us, so we'll have to make it work some-
CLICK!
SCATTER!!
It's good to be back.
Definitely.

How are the ribs?
Not too bad after the wrap came off, but I still have a lot of healing to do.
I hope the pain killers hold out.
SIGH - I wish we could have stayed a day or two longer at the hospital.
That probably would have been easier, but insurance companies don't care much about convenience.
AGH! Looks like I won't be sleeping on my side for a while.
Even with all the bed rest at the hospital, I still feel wiped out!
I think between what I went through, and what you went through, we both could use lots of recovery time.
Ready for a nap?
You read my mind.
wWAAAAAAHH!!
Coming Danielle!
Heh, welcome to our new life Sabrina.
It feels more magical already.

I'm here, I'm here!
Couldn't let me have Five minutes, huh?
OK, let's see what you need-
?
A phone?
Where did this come From?
I wonder what's up with... Oh my God, I think this is Zig Zag's phone!
IH.
IH!
How did the baby get Zig Zag's phone?
You think I know?
This is insane! Our girl is only days old, and Zig Zag is already corrupting her!
IH!
I don't think it's that bad. Looks like any 'sensitive' stuff is hidden behind a passcode.
Besides, Danielle is way too young to understand, even if she did see-
AAH!
AAAHH!!
OKAY! Jeez! here you go!
Didn't take long for our kid to become a tech junkie, did it?
With her parents, it was probably inevitable.

PREVIOUSLY:
Uhhhhhnnn.. My head.
Good morning,
or late afternoon, anyway.
Tina ... I don't remember much. Did we do anything ... embarassing?
I know I get kind of - experimental when I'm drunk.
Afraid not - too bad for me.
Well, what DID happen last night?
Most of us piled into the raccoon couple's van, and set off.
We dropped Endora off at her home first. I don't think her husband was too happy about her condition.
Z
Heh, yeah. Endora really can't hold her margaritas.
Once we got back here, you invited the raccoons in for even more drinks.
That sounds like something I'd do.

So that's the new baby?
I'm not impressed.
So, how are we going to handle this? We don't want things to go down like they did with Timmy.
Well, the problem there was we revealed ourselves to him.
No, the problem with Timmy is he chewed toys up! Kinda hard to stay quiet when you're gettin' gnawed on!
Well we've got no idea what this kid's gonna do.
Do all babies chew on toys? I really don't know.
I don't wanna Find out!
Not much we can do about it, except stay out of the baby's way.
Either way, probably best not to break 'Toy Story' protocol like we did with Timmy.
I guess that's about the only thing we can do for now, at least until we know better how this baby will treat toys.
humph.
So it's agreed,
-as far as this child is concerned, we're just inanimate objects.
Agreed.

uhhh...
How long were we asleep?
I don't know. I forgot to look at the clock before I went down.
IH.
IH!
This one's your turn.
On it.
Nngh... Why do I feel more worn out now than when I fell asleep?
Rrrgh! ... can barely... move at all!
Don't worry about it! I told you I got this. There's no need for the sci-fi acting!
Rrrrr...
uh-oh.
RC?
I'm a little busy with Danielle at the moment. What do ya need?
Do you think you could give Dr. Kaye a call please?
The doctor? What's wrong?
I'm hoping she can tell me.
I think my body stopped working.

Hello, did you have a question about your baby?
Actually, this is about Sabrina.
She's feeling extremely tired and weak. She can barely hold her head up.
How is her heart rate and breathing?
It's... Fine? I really can't say.
Well, I can't be sure, but it sounds like it could be a calcium deficiency.
A what?
Her body is dumping lots of calcium producing milk for the baby, so she needs to get lots of milk back in ASAP.
Milk? like - her own?
What? No! Just regular milk, cheese, yogurt, whatever you have.
Sorry, panicking a little.
Almonds and sardines are good too. Calcium supplements are OK, but the food and dairy will be absorbed much quicker.
Just get that stuff into her right away, and if she doesn't improve within a few hours, or gets worse at all, go straight to the emergency room.
I'll do that Doctor, thanks.
I'll move up her next appointment so we can check on any other possible causes.
It's odd. You usually don't see a reaction like this in skunks. This is more like bovine 'milk fever'.
I don't think I'll tell Sabrina you just compared her to a cow.
Good call.

Ugh. Sardines and milk make a horrible breakfast.
It's the breakfast of champions today!
You want mustard or hot sauce?
Both are equally disgusting.
Eat em.
You called me crazy for stocking up on these. Well, who's crazy now?
Still you.
I'm only doing this because it's better than going back to the hospital.
Give it time, and you'll get to like 'em as much as I do.
Not very likely.
I'll get something you like better when I get a chance to go to the grocery, I promise.
Feel any different?
I think it's way too early to tell yet.
I really hope this works. I hate seeing you wiped out like this.
I'm getting pretty tired of it myself.
I should go check on Danielle. I'll be right back with more sardines.
Oh, great.
At least the sauce is decent.
LATER...
Y'know, I Feel better than I have in days!
Of course you do. You're all hopped up on Fish!

After that little health scare, I guess now's the time to find out if I can survive getting drained.
You learn so fast,
going right to town in no time at all,
ya little vampire.
HEY! Quit peeping on me!
Lady, I'm your husband and her father. I think I should be allowed!
Fine, but get things straight - the boobs are MINE. I just loan them out from time to time.
Yes ma'am.
Besides, I'm feeling left out because those used to be all mine, and now I have to turn them over to someone else.

Since I Fed Danielle, you get to change her.
Ah, the glamour job.
Don't worry kiddo. This will probably be a little awkward for both of us, but I promise to be professional about it.
IH.
OK, I've got the wipes and everything ready. I'll just peel back these tabs, and...
*
IH?
aww!
What?
AOWWH!!
WHAT!?!
What's wrong?
How... how can... DID THE BABY EAT A TIRE FIRE!?
She's part skunk. It will take some time for her to learn to control her scent.
You can handle this!
Yeah, well I wasn't expecting chemical warfare when I-
uhh, God!
Yes, be more melodramatic. THAT'll get the job done!
IHH!

Look here Danielle! I have something to show you.
This is the Dinobot, Slag.
Of course some easily-offended or British people will tell you he should be called 'Slug', but we know better.
Slag was my favorite Dinobot when I was very young, and now he will be your guardian - your protector.
He will always be there for you. Nothing bad will ever happen to you while he is around.
I hope some day you'll be able to count on me as much as you can count on him.
CLICK!
Goodnight Danielle.
I love you!
Whoa, that is WAY too much pressure!

I'm still concerned that baby is going to wreck life as we know it.
Blasty is tryin' to ruin girls' night again.
How can you be so easygoing about this? Aren't you worried?
Not a lot we can really do about it if something does go down, but Danielle isn't going to do anything to us.
What makes you think that?
Well, it's not like I'm certain about it or anything, but seriously! She's a GIRL!
What difference does that make?
C'mon! Girls are just better! They're gentle and treat toys with respect! Look at how Mistress Sabrina treats us! She's even kind to Master Richard's sex-object toys.
HEY!
I'll bet'cha anything her child will treat us right too.
I really hope you're right,
or if you're wrong, that she chews you to bits first.
So, you gonna sit down and join us or what?
I would, but all this kibble on my back can't move out of the way.

How are we doing?
Better than I was when my husband called you.
I guess you were right about the calcium.
It seems so, but I'm not used to seeing this condition in skunks.
Deep breaths.
I'd like to run some blood tests to check all the levels, and see if there might be any underlying causes.
Umm, out of curiosity, my husband wanted to know how long we should wait before we can... you know.
Your husband wanted to know?
OK, WE wanted to know.
I'd recommend about two more weeks to let everything heal up properly.
Where is your husband, by the way?
He stayed home with Danielle. Was he supposed to be here?
Not necessarily. I think maybe I just got used to a crowd following you around.
I guess the birth was pretty insane, wasn't it?
I've seen worse, but you had the most interesting mix of people with you.
Because of that, I found out my wife is a tremendous fan of that porn star boss of yours.
Yeah, Zig Zag makes an impression alright. Sometimes it seems like everyone knows-
Did you say 'wife'?

MEANWHILE...
BEEP!
OK, let's see what the instructions say...
"Warm up the baby's milk or formula."
"NOTE: It is not recommended to use a microwave oven to do this."
OK, next time.
"The milk should be close to body temperature."
"You can test the temperature with a drop on the inside of your wrist."
AAGHK!!
SLAM!
OK, I'll let that one cool off for a bit.

Um - yes, I did.
So you're... lesbian?
Yeahhh...
Is that a problem for you?
I - I guess I hadn't really considered the possibility until just now, so I'm not sure **how** I feel about it.
Sorry, I usually avoid talking about my personal life, because sometimes it makes patients uncomfortable.
Well, it's not like I think anything's **wrong** with it, but I didn't feel too comfortable having a male doctor messing around with my lady-business, because, well...
I assure you, I am a complete professional
I'm not saying you **aren't!**
Look, I assume you deal with a lot of nudity and sexuality in your line of work.
Yeah, they're all over the sexual spectrum at the studio, but I'm married, and I stay detached so I can get my work done.
It's the same for me.
If you want to switch doctors, I'll understand.
No, this is my issue, and I've had no problems with you before. I'll deal with this.
As long as you don't start coming on to me, I'll just keep this totally asexual image of you in my head, and everything will be Fine.
Well if you don't mind some brutal honesty, you're really not my type.
Hm, I'm not sure how I feel about **that** either.
you and your wife might wanna keep away from Zig Zag though. **EVERYONE** is her type!
Noted.

I'm back!
How did it go?
Fine, I guess. I'm waiting to hear back on some blood tests though.
That wasn't the most interesting thing, however.
I just found out that Dr. Kaye is gay!
You didn't know?
By the way, did you ask about-
Two weeks.
So how did you know?
I dunno. It just seemed obvious to me.
She showed no interest in me whatsoever, for example.
Wait, so if any female isn't obviously attracted to you, that automatically makes her gay?
Well, not just any female, but that's how I knew you were straight!
I present you with 'exhibit A'.
You're insufferable.
You're just lucky that you're cute.
See?
So, do you think she became an OB/GYN because she's a really big fan of vaginas?
Don't talk like that in front of the baby!

Zig Zag Studios - this is Tina. How may I pleasure you today?
Hmm?
Oh, HI! She's been hoping you'd call.
It's Sabrina.
TOSS!
ZOOM!!
BABE! HEYYY!! It's been AGES!
Look, I know you're still on leave an' all, but do you think you could stop by ASAP? We have some computer issues here that need Fixing.
Don't you have anyone else there that can-
-And bring Danielle! I need my baby Fix!
but-
C'mon girl! Don't make me beg!
I didn't call to-
PLEASE PLEASE PLEASE PLEASE PLEASE!!
Fine. I'll try to stop in later this afternoon.
Thanks honey! You're an absolute treasure!
thanks.
You know you're special 'cause normally it's others begging me to come to them!
uh-huh.

Yup.
Extra diapers?
I think I have everything I need.
I'll try not to stay out long.
I'm not concerned.
IH.
Don't worry. She'll figure it out.
Sorry! I guess I should bring the baby along, huh?
You're doing fine, hon.
Huh, Now what?
I have the place all to myself.
I can finally do the things I've been wanting to do since before the baby came!

SABRINA! How's my Favorite MILF?
Please don't call me that.
ever.
You know I can't promise that.
Here. I have something for you.
My phone! Where did you find it?
Don't ask me how, but the baby must have lifted it.
I would've told you earlier, but - y'know ... baby.
Wow, she's such a little thief! I like her better already!
Danielle loves that phone, or at least she did until the battery ran out.
That was a rough night.
Oh well. In the name of irony, I already gave up and bought a new phone, so I guess she can keep this one.
You sure about that?
Consider it the first of many gifts.
Lemme grab the charger for you.
Thanks. I'll also need the password to get past the home screen, and clear out any porn you have on it.
There's no porn on my phone.
Really?
Oh sweet baby, most of my LIFE is pornographic! Why would I need to keep any on my phone!?

So why exactly were you pleading for me to come down here?
Well, I can't say for sure, but it looks like the whole computer network went tits up.
Oh!
Yeah. Normally I wouldn't bug you, but since everything is digital now, we can't get much work done.
I guess not!
Tracey can fill you in on the details.
Tracey does I.T.?
Ummmmm...
Guess I'll have to take a look then. Can you keep an eye on Danielle?
Honey, I've been waiting for you to ask that since you walked in the door!
OK then. I'll go check out that network now.
Hel-looo Danielle! It's your auntie Zig Zag!
Get to know this face, kid. it'll be the best friend you ever have.
sniff
Sabrina, I think the baby needs changing.
Whoops! I'll come back.
Nah, I think I can handle it.
Diapers and supplies are in the...
WAIT! ZIG ZAG! I gotta warn-
WHOA!
Sorry!
No prob! *COUGH!* It's just been a long time since I've dealt with a skunk baby! *HACK!*

So, what's the problem here?
The computer stopped working.
Can you be a little more specific?
Well, it was asking for a password so it could do something,
Uh-huh.
an' no one here knew what it was, so I started guessing,
Uh-huh.
an' after like Five or six tries, it stopped asking, but it also stopped doing anything.
Ohhh-kay. Well it looks like all the wrong logins triggered a lockout in the whole network.
Ohhhh! That makes sense.
I think if I boot the system up in safe mode, I can reset the password and things will be working again.
Thanks a lot Sabrina. You really know your way around this stuff!
Yeah OK, so first - if you need passwords, I hide them inside Soundwave here,
and second - why did anyone ask you to work on the computer system?
Well First I thought Zig Zag asked me 'cause you and I look kinda alike,
Uhhh..
-but I found out it was 'cause I play around with my phone more than anyone else here!
'Cause these things are pretty much like big Fat phones for your desk, right?
No offense Tracey, but I really hope my daughter doesn't grow up to be like you.

She's so CUTE!
Let me see!
Goo goo goo!
What's that smell?
Alright, quit crowding, ya mugs!
You're all giving her the spinny eyes!
Here, let's get you out of there.
You're very good with babies for...
-For a porn star?
Seemed hypocritical for me to say it.
Well, I practically raised my younger siblings, so I guess some of the old skills are still there.
Awww! Tracey and I want to have a baby just like this someday.
Check out her little tail!
Yeah - skunk and raccoon mix way better than I would've guessed.
Hey! What d'ya think you're doing there kid?
Almost as bad as Amy's baby.
Oh, I get it.
Not the milk jugs you were looking for, huh?
Let me try!

You fix the computer problem?
Yeah, I think so.
IH.
Good, because Danielle says it's feeding time.
She keeps checking out my boobs, then looking annoyed 'cause they're not yours.
That might be a first for you, huh?
Actually... yeah!
Is there somewhere private I can go to... um...
Huh? Oh sure! Just use my office and close the door behind you.
Thanks.
Mind if I watch?
Um- yes, I do mind.
Spoil-sport.
SURPRI-
Aw, you're no fun.
That's right,
and you're predictable.

Here's the phone back. Turns out you were right. I actually did have a few lewd selfies on there, so I deleted them for Danielle's sake.
And my sanity. Thanks.
IH!
I took the passwords off too, so it's fully useable now.
Heh, she won't know what to do with the thing now that she can get past the lock screen.
SWIPE!
TAP.
TAD
TAP
TAP
Whaaaa...?
How...
How is she playing Candy Crush already!?
I'm more impressed that she went to the app store to download it!
Zig, you better be sure you purged every trace of your credit card info off that thing.
Yeahhh...

You know, there are like, four or five other people here who could've fixed that computer security issue before it got worse.
Why did you sic Tracey on it?
Well, I thought possibly she might've had some hidden talent for that kind of work,
but mostly I was hoping she'd screw it up bad enough I'd have to call you in.
I thought that might be the case.
That obvious, huh?
Well, not THAT obvious until I saw it was just a matter of resetting some passwords.
Any excuse to lure me back here, huh?
I'll admit it. I missed you.
I missed this little darling too, even though we've only met briefly once before.
The very first thing she did was steal my heart,
and then my phone.
Do I need to be worried that you'll run off with my baby?
Nah. as far as I'm concerned, you two are an inseparable package deal.
Oh well. Nice to make someone feel needed, I guess.
Not many would take down their network to do it, however.
I think Danielle just puked down my cleavage.

We're home!
It's kinda like I figured. The problem at the studio was an excuse so Zig Zag could see me and Danielle.
At least she got a working phone out of it.
The way she can handle that phone already, I think Danielle just might be a genius!
Heh, when she threw up on Zig Zag, I nearly bust out laughing.
RC?
Z
RC! Wake up!
UH!?
WHUZZA?
Whuzgun onn?
Our child is a prodigy, and she spit up down Zig Zag's cleavage!
Ohh, well that's...
WHAT?

You got back pretty Fast! I thought you were gonna be gone a while.
What are you talking about? We were out For hours!
Really? Seems like I just laid down a minute ago, and you woke me up right away.
Wow, you must've **really** conked out!
Are you sure? You're not messing with me, are you?
Check the clock!
HO-LEE! How did that happen?
I guess you **seriously** needed some sleep.
Ugh, It's OK. I'm still working out this 'new parent' thing. That's all.
Hm?
What's that?
What's what?
There's a message on the phone From the doctor's office.
Huh. I didn't realize anyone had called.
How could you not hear the phone ringing? It's loud!
Babe, you **know** I just misplaced Four hours of my life. For all I know I wasn't even here!

Hello, this is Sabrina Conrad returning your call.
Sorry to call back so late. My husband slept through the phone ringing.
Don't be mean.
Thank you for checking in Mrs. Conrad. We got back the lab results from your blood tests, and aside from a slightly elevated LDL cholesterol level, there's nothing out of the ordinary.
That sounds good, but what about that whole calcium thing?
Well, as best as I can tell, you may have a genetic predisposition to not hold on to minerals such as calcium and potassium normally.
It shouldn't be a problem as long as you eat right. As you get older though, you might need to take supplements to keep your levels up.
I see...
You probably should find out if this is common in your family, so you'll know what to expect.
Thank you Doctor,
Good-bye.
Everything okay?
...
Sort of.
I learned I'm genetically destined to lose calcium.
I'll grab the sardines.

Sabrina! How's my granddaughter?
She's good. She has her own phone now.
What?
Look, Dad, I have a question for you.
Does anyone in the family have any problems with calcium - like brittle bones or anything?
Is that Sabrina?
Hey Sabrina!
Um, I'm not sure. We take vitamins every morning though.
I'll tell ya, Endora's grandmother could break a hip in a stiff breeze, howev-
Is that Sabrina?
WHAT'S WRONG!?
Sabrina! Are you OK?
I'm Fine Mom. I just wanted to know if calcium deficiency runs in the family.
Hmm? No, I don't think so.
Any health problems after you had me or Tabitha?
No, not really.
I remember you being quite grumpy then, and so run down you could barely move.
Really?
Well, yes, but you know I don't like to complain.
AHA HAHA HA HA HA HAAA!!!
Oh I'm sorry, you were being serious. Go on.

You OK?
This is no big deal, right? There's not something here you're not telling me, is there?
No, you're right. It's no big thing. So why do I feel like I was just told I have a terminal disease?
Maybe you're looking at it the wrong way. This is good news!
In what way is this good news?
Well, now you know exactly what's wrong with you!
Say, that is great news.
You see, you had a problem, got through it, and now you know how to deal with it, and avoid nastier surprises in the future, like brittle bones 'n' stuff.
Hmm. Oddly I do feel slightly better about this now.
See? No big deal truly is no big deal.
Where are you getting all this sudden wisdom from?
I owe it all to a few hours of sleep!

Doesn't smell like you need to be changed.
IH!
I see.
Battery's drained already? Alright, I'll put it on the charger.
We gotta limit your screen time, kid.
IH! IH! IH!

How's Danielle?
We're playing a new game. It's called "Shut up for a minute so I can think while the phone charges".
Peachy.
Even so, I think maybe you and I are starting to get tuned in to her.
How do you mean?
It's hard to describe, but it's like I'll react to the different sounds she makes without even thinking.
It all mostly sounds like "ih." to me.
It's subtle, but I can tell she makes different sounds when she's tired, or needs to be changed, or-
IH!
IHHH!
Or hungry? That sounds like it could be a hungry noise to me.
Oh hell.
IHHH!
Sabrina?
Oh HELL! AHH!
IHH!
You need me to do something?
Yeah, round up Danielle, and hang this up to dry.

No, why?
Guess.
Hold on, this is addressed to "Danielle Conrad".
Seriously? Who would-
Wait, that's the studio logo. It must be from Zig Zag.
The Frick!?
It's a stuffed toy of Zig Zag!
Not a very good likeness, is it?
I think I remember Zig was trying to put out merchandise like this a couple years back, but it didn't...
Wait.
What are you doing?
